Susan Linn Bio

Susan Linn is a fulltime Elementary and High School teacher in Orange County. She works in a private school, which allows her the flexibility to teach Elementary, Jr. High and High School Art and History and has 25 years experience. She also works with a program known as Meet the Master's. This program is comprised of four age appropriate artistic levels which introduce K-6th graders to seven famous and different artists and artistic styles each year. Sue says she has the privilege to instill a love for the arts in thousands of my students throughout the years and continues to do so. Her students, whose works are entered into the *Orange County Arts for All*, which features over 1000 works yearly at South Coast Plaza Crystal Court where some are then chosen to be judged and shown at the *Festival of the Arts in Laguna Beach* each year.

She currently spends most of her day in the high school, and works for the College Board teaching Advanced Placement (College Level) AP Art History, AP European History and AP World History. She has also led a dozen student and adult custom tours (2 to 3 weeks in summer) to the East Coast and Europe, where she specializes in taking her groups to the various tourist destinations, and those off the beaten track. Understanding the purpose of architecture, painting and sculpture in the world makes history come alive.

She stumbled into the Arts quite unexpectedly, after starting out in the Sciences. Sue believes that art has a universal language, purpose and can unite people from all walks of life. Sue's goal is to be an instrument and vehicle to help her students develop an understanding, along with a global appreciation for the various artists and artistic styles in the world in which we live.

Botanic Outing Re-Cap

Fun was had by all who attended our special outing to the Claremont Botanic Gardens. AAIE artists roamed the flowered paths and sketched their choices of sceneries from the many landscape possibilities before them. Nearing the Botanicas' 100th year, the habitat has grown wildly into a rural myriad of beautiful natural gardens.

Docent, Jennifer gave artists a brief history of the Botanic Gardens in Claremont, Ca.

A Joyride of Colorful Feelings Nancy Sakurai

My artwork considers the various places I have discovered in this world we live in. My work takes different forms and expressions, but always triggers a meaningful and captivating appearance of what my feelings convey to the onlooker. Clear and precise; tedious strokes continue to seize attention. My inspiration from brush to paper is unspoken smiles on faces. I attempt to create the action speaking within the beauty and calmness of a subject. Bright color splashes emotions of enthusiasm and the eagerness of the moment. And I attempt to do so. I've been asked before, "When do you know when your art is finished?" Answer, "NEVER!"

At the Museum, 217 S. Lemon Ave., Ontario – On view through July 15, 2023
