Kathryn Elliott Duncan

Kathryn Elliot Duncan has been involved with art materials for more than 25 years. As a ‘materials geek’ she is interested in the science of pigments, innovative uses of paint media, and mixing media such as painting, textiles, printing and assemblage. Graduating with a BFA in Painting and Printmaking in Chicago, she went on to work as a buyer and product developer at **Blick** art materials. Moving to California in 2006, she has become well versed in Oil, Acrylic, Watercolor, Encaustic, Drawing media, Intaglio, Monoprinting, Beading and Embroidery, both as a user and an educator. To Kathryn, the most thrilling part of working with materials is drawing on this knowledge to “solve” artists’ dilemmas when trying to create a specific effect. In 2011 she started **Art Workout**, a company devoted to art education and inspiration for artists of all ages and experience levels. Encouraging others to nurture their creative selves has become a passion, and Kathryn believes each artist is also a precious artwork. More recently she’s been excited to develop her mural portfolio, with several exterior murals going up in her local community. As an artist in the **Golden Working Artist Program**, Kathryn enjoys developing an array of painting techniques to keep pace with the amazing body of information and product depth available from **Golden Artist Colors**.
